EXECUTIVE SUMMARY

Behind Target

CA\$35,000 Savings Goal	CA\$8,000 Current Savings	CA\$26,154 Projected Savings	CA\$8,846 Remaining Gap	75% Goal Progress Fair
----------------------------	------------------------------	---------------------------------	----------------------------	------------------------------

SAVINGS VS. REMAINING GAP

Total projected: CA\$35,000

Projected Savings: CA\$26,154 (74.7%) Remaining Gap: CA\$8,846 (25.3%)

AI-ASSISTED SAVINGS GOAL SUMMARY

Your savings plan projects CA\$26,154 in 5 years — CA\$8,846 short of your vehicle goal of CA\$35,000 (75% of goal). To close this gap, approximately CA\$484.00/month would be needed — an additional CA\$184.00/month above your current CA\$300.00/month. Goal Readiness Score: 62/100 (Fair).

Your projected CA\$26,154 is composed of CA\$26,000 in total contributions (99.4%) and CA\$154 in estimated investment growth (0.6%) at a 4.5% assumed annual return compounded monthly. Starting from CA\$8,000, your CA\$300.00/month contribution illustrates how consistent savings build toward your vehicle goal.

The highest-impact action is to increase your monthly contribution. Estimated time to goal at current pace: —. Every additional contribution dollar benefits from the full compounding runway. Review your budget for opportunities to close the CA\$8,846 gap.

INPUTS & ASSUMPTIONS

Vehicle Goal Amount	CA\$35,000
Current Savings	CA\$8,000
Monthly Contribution	CA\$300.00/month
Assumed Annual Return	4.5%
Time Horizon	5 years
Compound Frequency	Monthly

DETAILED RESULTS

Projected Savings	CA\$26,154
Total Contributions	CA\$26,000
Estimated Investment Growth	+CA\$154
Remaining Gap	-CA\$8,846
Goal Progress	75% of vehicle goal
Required Monthly Contribution	CA\$484.00/month
Additional Monthly Needed	+CA\$184.00/month
Estimated Time to Goal	—
Goal Readiness Score	62/100 (Fair)

KEY DRIVERS / POSSIBLE ADJUSTMENTS

- Increase contributions: an additional CA\$184.00/month (to CA\$484.00/month total) would close the CA\$8,846 gap within your 5-year horizon.
- Consider one-time lump-sum contributions from windfalls, bonuses, or tax refunds — each reduces the remaining gap and benefits from the full remaining compounding runway.
- Extending the timeline adds more contribution months and compounding time, which may close the gap without increasing your monthly amount.
- Review whether your return assumption is appropriate for your savings vehicle — a higher assumed return reduces the required contribution, while a cash account would require the full gap to be covered by contributions.

METHODOLOGY

What this calculator models:

- Projects savings growth using monthly compounding at the assumed annual return rate.
- Applies future value formulas: FV of current savings grown over 60 months + FV of a monthly annuity over the same period.
- Reverse-solves the required monthly contribution (PMT formula) to reach the savings goal within the selected time horizon.
- Calculates goal progress as projected savings divided by the savings goal, expressed as a percentage.
- Computes a Goal Readiness Score based on goal progress percentage (capped at 100).
- Estimates time to goal by simulating month-by-month balance accumulation (up to 600 months / 50 years).

What this calculator does not model:

- Inflation — all values are nominal (not inflation-adjusted).
- Investment fees, management expenses, or account fees.
- Taxes on contributions, growth, or withdrawals.
- Changes in contribution amounts over time.
- Irregular contributions or lump-sum additions.
- Account type rules (TFSA, RRSP, 401k, savings account interest, etc.).
- Market volatility, sequencing risk, or variable returns.

EDUCATIONAL DISCLAIMER

This report is for illustrative and educational purposes only. Projected savings are estimates based on fixed assumed annual return rates and monthly compounding. Results do not account for inflation, investment fees, taxes, withdrawal timing, account type rules, or changes in contribution amounts over time. Actual savings outcomes will vary based on investment returns, contribution consistency, and personal circumstances. This report does not constitute financial, investment, tax, or legal advice. Consult a qualified financial advisor before making savings or investment decisions.
